LES S SNSE O V E R V I E W
Using Boolean operators, students will write code that compares values to make logical decisions.

LES S SSEN O B JECTIVES
Students will:
- Use Boolean operators to compare values.
- Apply Boolean logic, such as AND, OR, and NOT, to compose complex Boolean comparisons.

For the Teacher
- Lesson slide deck

G E T T I N G S T A R T E D
1) Introduction
Creating some sample boolean expressions - both simple and complex - is an excellent warm-up activity before the puzzle stages. Some examples have been included in the slide deck. The slide deck also has extra practice related to expressions that the students will have seen in the puzzles.
ACTIVITY: BOOLEAN OPERATORS

2) Online Puzzles

Head to CS in Algebra stage 14 in Code Studio to get started programming.
